02_inquiry_manager_app.png

The screenshot displays the Salesforce Inquiry Manager app interface. At the top, there is a navigation bar with a hamburger menu, a 'Developer Edition' badge, a search bar, and various utility icons. Below this is a secondary navigation bar with tabs for 'Home', 'Support Inquiries', 'Reports', and 'Dashboards'. The 'Support Inquiries' tab is active, showing a sub-tab for '* SUI-0000 | Support Inquiry'. The main content area is titled 'Support Inquiries' and 'Recently Viewed'. It features a list of items with a search bar and several action buttons: 'New', 'Import', 'Change Owner', and 'Assign Label'. The list contains one item, 'SUI-0000', which is highlighted. Below the list is a large empty box.

Lab 03 - Building a Custom Sales Tracker with Salesforce Standard & Custom Objects and Lightning App

06_new_product_interest_form_from_opportunity_populated.png

The screenshot displays a Salesforce Lightning App interface. In the background, a 'Property Manager' app is visible with an 'Opportunity' card titled 'East Deal - Teammate Owned'. Overlaid on this is a modal form titled 'Information' for creating a 'Product Interest'. The form includes the following fields:

- * Product Interest Name:** A text input field containing 'Lab 3 Evidence Interest'.
- Product:** A dropdown menu showing 'Service Cloud License'.
- Opportunity:** A dropdown menu showing 'East Deal - Teammate Owned'.
- Interest Level:** A dropdown menu showing 'Medium'.
- Estimated Quantity:** A text input field containing '4'.

At the top right of the modal, the 'Owner' is listed as 'naif alamlki'. At the bottom of the modal, there are three buttons: 'Cancel', 'Save & New', and 'Save'.

Lab 04 - Automating Lead Assignment and Securing Data with Salesforce Flow and Sharing Rules

03_lead_sharing_rules.png

The screenshot shows the Salesforce Setup interface. The top navigation bar includes the Salesforce logo, a search bar labeled "Search Setup", and various utility icons. The left sidebar contains a "Quick Find" search bar and a list of navigation items: Setup Home, Salesforce Go, Service Cloud Reports, Commerce Setup Assistant, Hyperforce Assistant, Release Updates, Salesforce Mobile App, Lightning Usage, AgentExchange Offers, Sales Cloud Everywhere, ADMINISTRATION (with sub-items Users, Data, Email), and PLATFORM TOOLS (with sub-item Subscription Management). The main content area is titled "Sharing Settings" and contains several sections:

- Sharing Settings:** A list of checkboxes for various sharing settings, including "Secure guest user record access" (checked), "Require permission to view record names in lookup fields", "Test asynchronous sharing recalculation in Apex tests", and "Grant access using hierarchies by default in new queues".
- Sharing Rules:** A section with three sub-sections: "Lead Sharing Rules", "Account Sharing Rules", and "Opportunity Sharing Rules". Each sub-section has "New" and "Recalculate" buttons and a help link.

The "Lead Sharing Rules" table is as follows:

Action	Criteria	Shared With	Lead
Edit Del	Lead: Industry EQUALS Manufacturing	Group: Manufacturing Sales Team	Read/Write
Edit Del	Lead: Industry EQUALS Technology	Group: Technology Sales Team	Read/Write

The "Account Sharing Rules" and "Opportunity Sharing Rules" sections both display the message "No sharing rules specified."

Lab 05 - Employee Equipment Request Automation with Salesforce Flow and Sharing Rules

05_lab5-mobile-request-record.png

The screenshot displays a Salesforce record page for an Equipment Request (EQR-0002). The page is titled "Equipment Request EQR-0002" and includes a search bar and navigation tabs (Home, Support Inquiries, Reports, Dashboards). The record details are as follows:

Field	Value
Request Name	EQR-0002
Equipment Type	Mobile Device
Request Priority	Medium
Request Status	Under Review
Requested By Email	test.employee@agentforce.example
Created By	naif alamlki, 8/9/2026, 6:54 PM
Owner	IT Support
Last Modified By	naif alamlki, 8/9/2026, 6:54 PM

The Activity section shows filters: All time • All activities • All types. It includes buttons for Refresh, Expand All, and View All. The activity list is currently empty, with a message: "No activities to show. Get started by sending an email, scheduling a task, and more." A button labeled "Show All Activities" is visible at the bottom of the activity section.

Lab 05 - Employee Equipment Request Automation with Salesforce Flow and Sharing Rules

06a_high_priority_request_manager_visibility_label.png

The screenshot shows the Salesforce Setup interface. At the top, there's a 'Developer Edition' badge and a search bar labeled 'Search Setup'. Below the navigation bar, the 'Setup' menu is open, showing 'Home' and 'Object Manager'. The left sidebar contains a 'Quick Find' search bar and a list of setup categories: Setup Home, Salesforce Go, Service Cloud Reports, Commerce Setup Assistant, Hyperforce Assistant, Release Updates, Salesforce Mobile App, Lightning Usage, AgentExchange Offers, Sales Cloud Everywhere, and ADMINISTRATION. Under ADMINISTRATION, the 'Users' link is selected.

The main content area is titled 'Sharing Settings' with a 'SETUP' icon. Below this, the 'Equipment Request Sharing Rule' is being configured. The configuration fields are:

- Label:** High Priority Request Mana
- Rule Name:** High_Priority_Request_Mai
- Description:** (empty text area)

Below the fields, there's a section titled 'Step 1: Select your rule type' with a red asterisk indicating required information. A table is partially visible with columns: Criteria, Field, Operator, and Value. The first row shows 'Request Date' as the field and 'AND' as the operator.

Equipment Request Sharing Rule

Use sharing rules to make automatic exceptions to your organization-wide sharing settings for defined sets of users.

Note: "Roles and subordinates" includes all users in a role, and the roles below that role. This includes portal roles that may give access to users outside the organization.

You can use sharing rules only to grant wider access to data, not to restrict access.

Label	IT Manager Role Request A

Modified By naif.alamiki, 8/9/2026, 6:56 PM

Lab 05 - Employee Equipment Request Automation with Salesforce Flow and Sharing Rules

08_it_support_queue_request_access_rule.png

The screenshot shows the Salesforce Setup interface. At the top, there's a 'Developer Edition' badge and a search bar labeled 'Search Setup'. Below the navigation bar, the 'Setup' menu is open, showing 'Home' and 'Object Manager'. The left sidebar contains a 'Quick Find' search bar and a list of setup categories: Setup Home, Salesforce Go, Service Cloud Reports, Commerce Setup Assistant, Hyperforce Assistant, Release Updates, Salesforce Mobile App, Lightning Usage, AgentExchange Offers, Sales Cloud Everywhere, and ADMINISTRATION. Under ADMINISTRATION, the 'Users' link is selected.

The main content area displays the 'Sharing Settings' for the 'Equipment Request' object. The title is 'Equipment Request Sharing Rule'. Below the title, there's a description: 'Use sharing rules to make automatic exceptions to your organization-wide sharing settings for defined sets of users.' A note states: 'Note: "Roles and subordinates" includes all users in a role, and the roles below that role. This includes portal roles that may give access to users outside the organization. You can use sharing rules only to grant wider access to data, not to restrict access.'

The configuration form includes the following fields:

- Label:** IT Support Queue Request
- Rule Name:** IT_Support_Queue_Reque: (with an information icon)
- Description:** (empty text area)
- Equipment Request: owned by members of:** Queue: IT Support
- Share with:** Group: IT Support Team
- Access Level:** Read/Write (dropdown menu)

At the bottom right, it shows 'Modified By: naif.alamli, 8/9/2026, 6:56 PM'.

Case Categorization

Analyzes incoming case descriptions and determines the correct support category.

Reasoning Instructions ⓘ

When a user provides a case description, analyze the content and determine the most appropriate category:

Billing covers charges, payments, invoices, refunds, and subscription costs.

Technical covers system errors, outages, integrations, and product functionality.

Account Access covers login problems, password resets, locked accounts, and security verification.

Problems

Current evidence collection | Page 42

Lab 06 - Building an Agentforce-Powered Case Resolution Assistant

07b_case_categorization_instructions_bottom.png

The screenshot displays the Agentforce Builder interface for a "Case Resolution Assistant" (Version 2, Active). The top bar shows the last save time as 8/10/2026, 5:33 AM, with buttons for "New Version" and "Deactivate".

The left sidebar, titled "Explorer", contains a search bar and a tree view of the project structure:

- Agent Definition
 - Settings
 - Agent Details
 - System Messages
 - Agent-Level Instructions
 - Language Settings
 - Subagents
 - agent_resolution
 - Case Categorization** (highlighted with a blue callout box)
 - Resolution Suggestions
 - Variables
 - Connections
 - Data

The main workspace shows the "Case Categorization" subagent configuration. The "Preview" tab is active, displaying the "Reasoning Instructions" section:

Reasoning Instructions ⓘ

When a user provides a case description, analyze the content and determine the most appropriate category:

- Billing covers charges, payments, invoices, refunds, and subscription costs.
- Technical covers system errors, outages, integrations, and product functionality.
- Account Access covers login problems, password resets, locked accounts, and security verification.
- General Inquiry covers questions that do not clearly fall into the other categories.

Consider keywords, context, and the nature of the customer's issue.

Respond with the category name and a brief one-sentence explanation.

After categorizing the case, continue to Resolution Suggestions when the user also asks for guidance or an update.

A "Problems" tab is visible at the bottom of the workspace.

Lab 06 - Building an Agentforce-Powered Case Resolution Assistant

08_resolution_suggestions_instructions_top.png

The screenshot displays the Agentforce Builder interface for a 'Case Resolution Assistant' (Version 2, Active). The top bar shows the last save time as 8/10/2026, 5:33 AM, with buttons for 'New Version' and 'Deactivate'. The left sidebar, titled 'Explorer', contains a search bar and a tree view with categories: Agent Definition, Settings (Agent Details, System Messages, Agent-Level Instructions, Language Settings), Subagents (agent_..., Case Categorization, Resolution Suggestions, Update Case with AI Recom...), Variables, Connections, and Data. A blue callout bubble labeled 'Resolution Suggestions' points to the 'Resolution Suggestions' subagent. The main preview area shows the 'Reasoning Instructions' for the selected subagent. The instructions are as follows:

Reasoning Instructions ⓘ

Based on the case category and description, suggest 2 to 3 actionable resolution steps.

For Billing, check payment history, review duplicate charges, and initiate a refund when applicable.

For Technical, clear cache and cookies, check system status, and collect error logs for escalation.

For Account Access, initiate a password reset, verify identity, and check account lockout policies.

For General Inquiry, review help documentation, direct the customer to the right team, and follow up within one business day.

Keep the guidance concise. Do not suggest steps requiring access the support agent would not have.

When a valid Salesforce Case record ID is present, call the `update_case_with_ai_recommendations` action using the final category and concise resolution text.

At the bottom of the preview area, there is a 'Problems' tab and navigation icons.

Lab 06 - Building an Agentforce-Powered Case Resolution Assistant

08b_resolution_suggestions_instructions_bottom.png

The screenshot displays the Agentforce Builder interface for a 'Case Resolution Assistant' (Version 2, Active). The top bar shows the last save time as 8/10/2026, 5:33 AM, with buttons for 'New Version' and 'Deactivate'.

Lab 06 - Building an Agentforce-Powered Case Resolution Assistant

09a_get_case_record_mapping.png

The screenshot displays the Salesforce Flow Builder interface. At the top, the 'Developer Edition' tab is active. The flow being edited is 'Update Case with AI Recommendations - V2'. The flow canvas shows three steps: 'Autolaunched Flow Start', 'Get Case Record' (highlighted with a blue border), and 'Set AI Recommendations Assignment'. The 'Get Case Record' step is selected, and its configuration panel is open on the right. The configuration panel includes the following fields:

- * Label:** Get Case Record
- * API Name:** Get_Case_Record
- Description:** (Empty text area)
- Get Records of This Object:**
 - * Object:** Case
 - ☐ Also get related records (beta)
- Filter Case Records:** (Empty text area)

Lab 06 - Building an Agentforce-Powered Case Resolution Assistant

09b_get_case_record_filter_mapping.png

The screenshot displays the Salesforce Flow Builder interface for a flow named "Update Case with AI Recommendations - V2". The flow is in "Developer Edition" and is currently "Active". The flow consists of three steps: "Autolaunched Flow Start", "Get Case Record" (highlighted), and "Set AI Recommendations Assignment".

The right-hand pane shows the configuration for the "Get Records" step:

- Filter Case Records:**
 - Condition Requirements: All Conditions Are Met (AND)
 - Field: Case ID
 - Operator: Equals
 - Value: recordId
 - + Add Condition
- Sort Case Records:**
 - Sort Order: Not Sorted
 - Warning: If you store only the first record, filter by a unique field, such as ID.

For updating the case with the AI category and resolution, please use your internal case management system to input the details. Let me know if you need further assistance!

Hi, I'm the Contract Renewal Assistant. I can summarize an upcoming renewal or update its status and notes.

Generate a renewal summary for Coastal Health Partners.

The renewal for Coastal Health Partners is currently in progress, with a contract value of \$150,000 and a renewal date set for August 30, 2026. It is advisable to initiate discussions regarding the renewal terms to ensure a smooth transition before the deadline. Please consider scheduling a meeting with the client to address any questions or concerns. Would you like to update the renewal status or add notes for this account?

Describe your task or ask a question...

Renewal Summary Generator

Generates a renewal summary for a specified account using the Renewal Summary Generator prompt template.

Reasoning Instructions ⓘ

Identify the Renewal Record for the account the user specifies.

If the account is missing, ask the user for the account name.

First invoke lookup_renewal_record with the exact account name.

Then invoke generate_renewal_summary using the Renewal Record returned by the lookup action.

Renewal Summary Generator

Generates a renewal summary for a specified account using the Renewal Summary Generator prompt template.

Reasoning Instructions ⓘ

Identify the Renewal Record for the account the user specifies.

If the account is missing, ask the user for the account name.

First invoke lookup_renewal_record with the exact account name.

Then invoke generate_renewal_summary using the Renewal Record returned by the lookup action.

Present the generated summary clearly and do not invent record values.

Actions Available For Reasoning ⓘ

Lookup Renewal Record

Renewal Status Update

Updates Renewal Status and Notes for a specified account.

Reasoning Instructions ⓘ

Confirm the account name and the new status before updating.

Capture the user's status notes when provided.

Do not update a record unless the user explicitly requests the change.

Invoke update_renewal_record only after the account and status are clear.

Actions Available For Reasoning ⓘ

Lab 09 - Automating Case Assignment and Securing Sensitive Data with Salesforce Flow and Sharing Rule

02_lab9-billing-case-owner.jpg

The screenshot displays the Salesforce Agentforce Studio interface. At the top, there's a navigation bar with a hamburger menu, a 'Developer Edition' button, a search bar, and various utility icons. Below this is a tab bar showing multiple open tabs, with the current tab being '000010...'. The main content area is titled 'Case Lab9 Billing Inquiry Test'. It includes a header with 'Case' and a red case icon, and a sub-header with 'Priority Medium', 'Status New', and 'Case Number 00001030'. To the right of the title are buttons for '+ Follow', 'Edit', 'Delete', and 'Change Owner'. Below the header, there's a 'Feed' section with tabs for 'Feed' and 'Related'. The 'Feed' tab is active, showing a 'Post' input field with a 'Share' button. Below the input field, there's a 'Most Recent Activity' dropdown and a 'Search this feed...' bar. At the bottom of the feed, there's a list of activity types: 'All Updates', 'Call Logs', 'Text Posts', and 'Status Changes'. The 'All Updates' tab is selected, showing a single update from 'naif alamlki' posted '3m ago'. To the right of the feed is a 'Details' section with a table of case information:

Details	
Case Owner	Status
Billing Queue	New
Case Number	Priority
00001030	Medium
Contact Name	Contact Phone
Account Name	Contact Email
Type	Case Origin
Case Reason	Web
Backup Agent	

Lab 09 - Automating Case Assignment and Securing Sensitive Data with Salesforce Flow and Sharing Rule

03_lab9-case-owd-private.jpg

The screenshot shows the Salesforce Sharing Settings page for 'Cases'. The left sidebar contains navigation links for 'Salesforce Mobile Quick Start', 'Home', and 'Administer' (with sub-links like Release Updates, Manage Users, etc.). The main content area is titled 'Sharing Settings' and includes a search bar, a 'Manage sharing settings for:' dropdown set to 'Cases', and a 'Disable External Sharing Model' button. Below this is the 'Default Sharing Settings' section, which includes a table for 'Organization-Wide Defaults' and a section for 'Other Settings' with various checkboxes. At the bottom, there is a 'Sharing Rules' section with 'New' and 'Recalculate' buttons.

Sharing Settings

The screenshot shows the Salesforce Setup interface. At the top, there's a navigation bar with a hamburger menu, a 'Developer Edition' badge, and a search bar labeled 'Search Setup'. Below this is a secondary navigation bar with 'Setup', 'Home', and 'Object Manager' tabs. A left sidebar contains a 'Quick Find' search box and a list of setup categories: Setup Home, Salesforce Go, Service Cloud Reports, Commerce Setup Assistant, Hyperforce Assistant, Release Updates, Salesforce Mobile App, Lightning Usage, AgentExchange Offers, Sales Cloud Everywhere, and ADMINISTRATION. Under ADMINISTRATION, 'Users' is selected. The main content area is titled 'Sharing Settings' with a sub-header 'Sharing Settings'. It includes a description: 'This page displays your organization's sharing settings. These settings specify the level of access your users have to each others' data. Go to [Background Jobs](#) to monitor the progress of a change to an organization-wide default or a parallel sharing recalculation.' Below this is a dropdown menu 'Manage sharing settings for:' set to 'Confidential Client'. There's a button 'Disable External Sharing Model'. The 'Default Sharing Settings' section features a table for 'Organization-Wide Defaults' with columns: Object, Default Internal Access, Default External Access, and Grant Access Using Hierarchies. The table shows 'Confidential Client' with 'Private' for both internal and external access, and a checkmark for 'Grant Access Using Hierarchies'. There are 'Edit' and 'Help' links for this section. Below the table is the 'Other Settings' section with its own 'Help' link.

Lab 10 - Implementing Advanced Salesforce Security and Data Validation

04_invalid_contract_value_validation_error.png

The image shows a Salesforce record form for a 'Sales Tracker' object. The form is displayed in a 'Developer Edition' window. The form fields include:

- Confidential Client Name**: A text input field.
- Owner**: A dropdown menu showing 'naif alamlki'.
- Sensitive Information**: A text input field.
- Contract Value**: A text input field containing '-\$1'. This field is highlighted with a yellow background and a red error message: 'Contract Value must be a positive number'.
- Approval Status**: A dropdown menu showing 'Approved'.

A validation error message is displayed in a pink box with a red 'X' icon:

⊘ We hit a snag.

Review the following fields

- [Contract Value](#)

The form has three buttons at the bottom: 'Cancel', 'Save & New', and 'Save'. The 'Save' button is highlighted in blue.

Lab 11 - Build a Lightning App and Automate Processes with Salesforce Flow

04_opportunity_high_interest_record_triggered_flow.png

Lab 11 - Build a Lightning App and Automate Processes with Salesforce Flow

05_embedded_opportunity_qualification_flow_in_action.png

The screenshot displays the Salesforce Lightning App interface. At the top, there is a navigation bar with a hamburger menu, a 'Developer Edition' button, a search bar, and various utility icons. Below this is a secondary navigation bar with tabs for 'Sales Agent Productivity', 'Home', 'Accounts', 'Opportunities' (which is selected and underlined), 'Leads', and 'Dashboards'. The main content area is titled 'Opportunity Lab11 High Interest Flow Test'. It features a header with a crown icon and a 'Submit for Approval' button. Below the header, there are two main sections. The left section, titled 'Opportunity Qualification Flow', contains a 'Close Reason' field with an information icon and a 'Delivery Status' link. The right section, titled 'Product Interest (0)', has a dropdown arrow. At the bottom of the 'Opportunity Qualification Flow' section, there is a 'Next' button. The overall layout is clean and modern, typical of the Salesforce Lightning design.

Lab 12

Securing Data and Enhancing Data Quality with Salesforce Sharing and Validation Rules

9 screenshot(s)

Lab 12 - Securing Data and Enhancing Data Quality with Salesforce Sharing and Validation Rules

01_lab12-sharing-settings.jpg

The screenshot shows the Salesforce Sharing Settings page. The left sidebar contains navigation links for Home, Administer, and Security Controls. The main content area is titled 'Sharing Settings' and includes a description of the page's purpose. Below the description, there is a dropdown menu to 'Manage sharing settings for' set to 'All Objects'. A button 'Disable External Sharing Model' is visible. The 'Default Sharing Settings' section features a table of 'Organization-Wide Defaults' with columns for Object, Default Internal Access, Default External Access, and Grant Access Using Hierarchies. The table lists various objects and their corresponding sharing settings.

Sharing Settings

This page displays your organization's sharing settings. These settings specify the level of access your users have to each others' data. Go to [Background Jobs](#) to monitor the progress of a change to an organization-wide default or a parallel sharing recalculation.

Lab 12 - Securing Data and Enhancing Data Quality with Salesforce Sharing and Validation Rules

02_role_hierarchy_east_west_under_sales_manager.png

The screenshot displays the Salesforce Setup interface. At the top, there's a navigation bar with a hamburger menu, a 'Developer Edition' badge, and a search bar labeled 'Search Setup'. Below this is a secondary navigation bar with 'Setup', 'Home', and 'Object Manager' tabs. A left sidebar contains a 'Quick Find' search box and a list of setup categories: Setup Home, Salesforce Go, Service Cloud Reports, Commerce Setup Assistant, Hyperforce Assistant, Release Updates, Salesforce Mobile App, Lightning Usage, AgentExchange Offers, Sales Cloud Everywhere, ADMINISTRATION, and a collapsed 'Users' section. The main content area is titled 'Roles' and shows a hierarchical tree structure. The hierarchy starts with 'CEO' at the top, followed by 'CFO', 'COO', and 'Sales Manager'. Under the first 'Sales Manager' node, there are 'East Sales Team' and 'West Sales Team' roles. Below these is another 'Sales Manager' node, and at the bottom is 'SVP, Customer Service & Support'. Each role in the hierarchy has 'Edit', 'Del', and 'Assign' action links next to it. The 'East Sales Team' role is highlighted with a black border.

02_role_hierarchy_east_west_under_sales_manager.png

Lab 12 - Securing Data and Enhancing Data Quality with Salesforce Sharing and Validation Rules

03_east_sales_team_opportunity_sharing_rule.png

The screenshot shows the Salesforce Setup interface. At the top, there's a navigation bar with a hamburger menu, a 'Developer Edition' button, and a search bar labeled 'Search Setup'. Below this is a secondary navigation bar with 'Setup', 'Home', and 'Object Manager' tabs. The left sidebar contains a search bar 'Sharing Settings' and a 'Security' section with links to 'Guest User Sharing Rule Access Report' and 'Sharing Settings' (which is highlighted). Below the sidebar, a message reads: 'Didn't find what you're looking for? Try using Global Search.'

The main content area is titled 'Sharing Settings' with a 'SETUP' icon. It contains three checkboxes with information icons: 'Require permission to view record names in lookup fields', 'Test asynchronous sharing recalculation in Apex tests', and 'Grant access using hierarchies by default in new queues'. Below this is the 'Sharing Rules' section, which includes a sub-header 'Opportunity Sharing Rules' and buttons for 'New' and 'Recalculate'. A table lists the existing rule:

Action	Criteria	Shared With	Opportunity
Edit Del	Owner in Role: East Sales Team	Role: East Sales Team	Read Only

Below the table is the 'Sharing Overrides' section, with a sub-header 'Profiles That Override Opportunity Sharing' and a 'Sharing Overrides Help' link. A yellow banner at the bottom states: 'Organization-wide permissions affect all objects in the organization. Object permissions affect only the given object. Tell me more! Don't show this message again.'

Lab 12 - Securing Data and Enhancing Data Quality with Salesforce Sharing and Validation Rules

05_closed_won_future_close_date_validation_error.png

The screenshot shows the 'New Opportunity' form in Salesforce. The form is titled 'New Opportunity' and includes a close button (X) in the top right corner. A legend indicates that an asterisk (*) denotes required information. The form is divided into two main sections: 'Opportunity Information' and 'Account Information'.

Opportunity Information:

- Opportunity Owner:** naif alamlki
- Private:** ☐
- * Opportunity Name:** Lab12 Validation Evidence
- Amount:** \$5,000.00
- * Close Date:** 3/31/2027. A red error message is displayed below the date field: 'For 'Closed Won' opportunities, the Close Date must be today or in the past.'
- Next Step:** (Empty field)
- * Stage:** Closed Won

Account Information:

- Account Name:** Search Accounts

At the bottom of the form, there are three buttons: 'Cancel', 'Save & New', and 'Save'. A red prohibition icon (a circle with a diagonal line) is positioned over the 'Save' button, indicating that the record cannot be saved due to the validation error.

Lab 12 - Securing Data and Enhancing Data Quality with Salesforce Sharing and Validation Rules

06_closed_won_saved_past_date_amount.png

The screenshot shows a Salesforce interface for a 'Developer Edition' user. The main navigation bar includes 'Sales Tracker', 'Home', 'Opportunities', 'Products', and 'Product Interest'. The 'Opportunities' tab is active, displaying a record for 'Lab12 Validation Evidence'. The record details include 'Account Name', 'Close Date' (8/19/2026), 'Amount' (\$5,000.00), and 'Opportunity Owner' (naif alamlki). A progress bar at the bottom of the record shows a sequence of steps, all marked with a checkmark, leading to the 'Closed Won' stage. A 'Change Closed Stage' button is visible. Below the progress bar, there is a section titled 'Instructions for Sales Reps:' which provides guidance on using the 'Product Interests' related list. To the right, a 'Related' section shows two related lists: 'Product Interest (0)' and 'Products (0)'. The interface also features a search bar, a star icon, a plus icon, a bell icon, a question mark icon, a gear icon, a notification icon with a red '4' badge, and a user profile icon.

Lab 14 - Agentforce for Retail - Product Recommendation Agent

01_lab14-salesforce-go-agentforce-studio-completed.jpg

The screenshot displays the Salesforce Go interface. At the top, there's a navigation bar with a hamburger menu, a 'Developer Edition' badge, a search bar labeled 'Search Setup', and several utility icons including a star, a plus, a bell, a question mark, a gear, a notification bell with a red '3', and a user profile icon. Below the navigation bar, the left sidebar contains a 'Quick Find' search box and a list of navigation items: 'Setup Home', 'Salesforce Go' (highlighted), 'Service Cloud Reports', 'Commerce Setup Assistant', 'Hyperforce Assistant', 'Release Updates', 'Salesforce Mobile App', 'Lightning Usage', 'AgentExchange Offers', 'Sales Cloud Everywhere', 'ADMINISTRATION' (with sub-items 'Users', 'Data', 'Email'), and 'PLATFORM TOOLS' (with sub-item 'Subscription Management'). The main content area has a blue header with the 'Salesforce Go' logo and a welcome message: 'Welcome naif! Explore and set up features you already own, track their usage, and discover new products.' A 'Developer Edition' badge is also present. Below the header, there's a search bar containing 'Agentforce Studio'. Underneath the search bar, there are five filter dropdowns: 'Cloud' (Select), 'Category' (Select), 'Status' (Select), 'Availability' (Select), and 'Other' (Select). The results section shows '1 Feature Result for "Agentforce Studio"'. The result is a card for 'Agentforce Studio' with a 'Cross Cloud' icon and a description: 'Ideate, build, and deploy your agents using Agentforce Studio.' The card includes a green 'Completed' badge and a 'Manage' button.

The screenshot shows the Salesforce interface for configuring the 'Lab14 Retail Access' Permission Set. The left sidebar contains navigation links for 'Salesforce Mobile Quick Start', 'Home', 'Administer' (with sub-links for Release Updates, Manage Users, Roles, and Permission Sets), 'Manage Apps', 'Manage Territories', 'Company Profile', 'Data Classification', and 'Privacy Center'. The main content area is titled 'Permission Set Lab14 Retail Access' and includes a search bar, 'Find Settings...', and buttons for 'Clone', 'Edit Properties', 'Manage Assignments', and 'View Summary'. Below this, there are tabs for 'Permission Set Overview', 'Object Settings', and 'Opportunities'. The 'Opportunities' tab is active, showing 'Tab Settings' with 'Available' and 'Visible' checkboxes, and 'Object Permissions' with a table of permissions for the 'Opportunities' object. The 'Field Permissions' section is also visible at the bottom.

The screenshot displays the Salesforce Setup interface. At the top, there is a 'Developer Edition' badge and a search bar labeled 'Search Setup'. Below the search bar, the 'Setup' menu is open, showing options like 'Home', 'Object Manager', and 'Quick Find'. The 'Quick Find' search bar is also visible. On the left sidebar, the 'Users' section is expanded under 'ADMINISTRATION'. The main content area shows the 'Profiles' configuration for the 'Log Product Recommendation to Opportunity' flow. The configuration includes a 'Save' button and a 'Cancel' button. Below these, there is a section titled 'Configure user access to run this flow' with a 'Help for this Page' link. The configuration details state: 'By default, users with any of the following permissions can run this flow.' followed by a list of permissions: 'Run Flow or Manage Flow in their profile or permission set' and 'Flow User in their user record'. A checkbox labeled 'Override default behavior and restrict access to enabled profiles or permission sets.' is checked. Below this, there are two columns: 'Available Profiles' and 'Enabled Profiles'. The 'Available Profiles' list includes: 'Analytics Cloud Integration User', 'Analytics Cloud Security User', 'Anypoint Integration', 'Authenticated Website', 'B2B Reordering Portal Buyer Profile', 'Contract Manager', 'Cross Org Data Proxy User', and 'Custom Marketing Profile'. The 'Enabled Profiles' list includes: 'Einstein Agent User'. An 'Add' button with a right arrow is located between the two lists.

The screenshot displays the Salesforce Setup interface. At the top, there's a navigation bar with a hamburger menu, a "Developer Edition" badge, a search bar labeled "Search Setup", and various utility icons. Below this is a sub-navigation bar with "Setup", "Home", and "Object Manager" tabs. A left sidebar contains a "Quick Find" search box and a list of setup categories: Setup Home, Salesforce Go, Service Cloud Reports, Commerce Setup Assistant, Hyperforce Assistant, Release Updates, Salesforce Mobile App, Lightning Usage, AgentExchange Offers, Sales Cloud Everywhere, ADMINISTRATION, and Users. The main content area is titled "Permission Sets" and shows the configuration for a specific "Permission Set" named "Lab14 Retail Access". It includes a "Find Settings..." search box and buttons for "Clone", "Edit Properties", "Manage Assignments", and "View Summary". Below this, a breadcrumb trail shows "Permission Set Overview > Flow Access". There are filters for "Items per page: 50 Items" and "View: All". A table titled "Flow Access" lists flows and their installed packages. The table has two columns: "Flow Name" and "Installed Package". One flow is listed: "Log Product Recommendation to Opportunity".

Electronics.

What is the customer's intended use for the electronics product? For example, are they looking for something for work, gaming, entertainment, travel, or another purpose? Also, do they have a specific budget in mind?

The budget is \$150 to \$500. It is for a music-loving remote worker who needs noise cancellation.

The best match for your customer is the ProSound Wireless Headphones. They fit the \$150-\$500 budget and are designed for music lovers and remote workers who need high-quality sound and effective noise cancellation. This product will provide an excellent listening experience and help maintain focus during remote work. Would you like me to log this recommendation to the Opportunity? If so, please provide the Opportunity ID.

🤖 Hello! I'm the Invoice Dispute Handler. Share the client name, invoice number, and dispute details, and I'll classify the issue and prepare a response.

👤 Process this end to end. Client: Acme Manufacturing. Invoice: INV-2026-0814. We agreed to \$10,000 but the invoice is \$12,000. Classify it, draft the response, and create the Dispute Record.

🤖 We acknowledge receipt of your dispute regarding invoice INV-2026-0814. We understand your concern that the invoiced amount is \$12,000, whereas the agreed amount was \$10,000. Our finance team is currently cross-referencing this invoice with the original purchase order. We will provide you with a response within 5 business days. Thank you for bringing this to our attention. Is there anything else we can assist you with?

Lab 17 - Dynamic Forms and Visibility Rules - Loan Application Pages

05_lab17-section-commercial-visibility.jpg

The screenshot displays the Lightning App Builder interface in Developer Edition, configured for the 'Loan Application Record Page'. The main canvas shows a form layout with four sections: Applicant Information, Property Details, Auto Details, and Commercial Details. The Commercial Details section is currently selected and highlighted with a blue border. The left sidebar lists various components available for use, including Accordion, Action Launcher, and various content containers. The right sidebar shows the 'Field Section' configuration panel, where a visibility rule is defined: 'Record > Loan Type Equal Commercial'. The form fields are organized into columns, and the 'Commercial Details' section is set to be visible only when the loan type is 'Commercial'.

Lab 17 - Dynamic Forms and Visibility Rules - Loan Application Pages

06_lab17-phone-form-factor.jpg

The screenshot displays the Lightning App Builder interface in Developer Edition. The top navigation bar shows the current page as "Loan Application Record Page". The left sidebar lists various components under the "Standard (60)" category, including Accordion, Action Launcher, Actions & Recommendations, AI Content Summarizer, Approval Trace, Assessment List, constraints_studio:constraintsStudi..., Content Search Container, CRM Analytics Collection, CRM Analytics Dashboard, Data Model, Dynamic Related List - Single, Einstein Next Best Action, Flow, Highlights Panel, Invoice Preview, Launchpad, and List View.

The central canvas shows a mobile form layout with the following sections:

- Property Address**: A text input field labeled "Property Address".
- Property Value**: A text input field labeled "Property Value".
- Auto Details**: A section containing two text input fields, both labeled "Vehicle Make and Model".
- Vehicle Year**: A text input field labeled "Vehicle Year".
- Commercial Details**: A section containing two text input fields, both labeled "Business Name", and a text input field labeled "Collateral Description".

The right sidebar shows the configuration options for the selected component, "Field Section". The "Label" is set to "Custom". The "Custom Label" is "Commercial Details". The "Columns" are set to "2 Columns". The "Align fields horizontally" checkbox is unchecked. The "Set Component Visibility" section shows a filter: "Record > Loan Type Equal Commercial".

Lab 17 - Dynamic Forms and Visibility Rules - Loan Application Pages

07_lab17-activation-loan-officer.jpg

Activation: Loan Application Record Page

Custom record pages can be assigned at different levels:

- The org default** record page displays for an object unless more specific assignments are made.
- App default** page assignment, if specified, overrides the org default.
- App, record type, profile** assignments override org and app defaults.

[Learn more about Lightning page assignment.](#)

ORG DEFAULT **APP DEFAULT** **APP, RECORD TYPE, AND PROFI...**

Set a combination of apps, record types, and profiles to display this custom record page. This setting is the most specific and allows for fine-grained customization within a Lightning app.

Hello! I'm the Customer Support Agent. I can help you check a case status or answer common account and billing questions.

What is the status and priority of case 00001033?

Here are the details for case 00001033:

- Case Subject: Billing charge dispute
- Current Status: In Progress
- Priority: Medium

A support agent is actively working on your case and will be in touch with you shortly. Is there anything else I can help you with regarding this case or any other issue?

Describe your task or ask a question...

✓ JUPYTER VARIABLES

	Name	Type	Size	Value
data	dict	5	{'customer_id': [101, 102, 103, 104, 105], 'age':	
df	DataFrame	(5, 6)	customer_id age income signup_date \	
	mean_income	float64	73750.0	
	median_age	float64	34.0	

Lab 21 - Data Preprocessing and Feature Engineering for AI

02_2026-07-21_104358.png

The screenshot shows a Jupyter Notebook interface with a dark theme. The top bar includes a 'Welcome' tab, a file named 'Untitled-1.ipynb', and icons for settings, search, and window management. Below the top bar is a toolbar with buttons for 'Generate', 'Code', 'Markdown', 'Run All', 'Restart', 'Clear All Outputs', 'Jupyter Variables', 'Outline', and a Python version indicator 'Python 3.14.6'.

The main code cell contains the following Python code:

```
print(df)
```

The output of the code is displayed below the cell, showing the initial raw dataset with 5 rows and 6 columns. The columns are 'customer_id', 'age', 'income', 'signup_date', and 'review_text'. The data is as follows:

	customer_id	age	income	signup_date	review_text
0	101	25.0	55000.0	2022-01-15	The product is amazing! I use it every day.
1	102	NaN	72000.0	2021-11-20	It's okay, but could be better. Needs more fea...
2	103	34.0	NaN	2023-05-10	Terrible experience. The app crashed immediately.
3	104	45.0	120000.0	2020-08-01	NaN
4	105	NaN	48000.0	2023-09-25	Absolutely love the new generative AI tools in...

Below the code cell is a 'Debug Console (Ctrl+Shift+Y)' button. At the bottom of the interface is a 'JUPYTER VARIABLES' panel showing a table of variables:

Name	Type	Size	Value
data	dict	5	{'customer_id': [101, 102, 103, 104, 105], 'age':
df	DataFrame	(5, 6)	customer_id age income signup_date \
mean_income	float64		73750.0
median_age	float64		34.0

Lab 21 - Data Preprocessing and Feature Engineering for AI

03_2026-07-21_104259.png

The screenshot displays a Jupyter Notebook environment. The top toolbar includes options like 'Generate', 'Code', 'Markdown', 'Run All', 'Restart', 'Clear All Outputs', 'Jupyter Variables', 'Outline', and 'Python 3.14.6'. The main area shows a DataFrame with the following data:

	customer_id	account_tenure_days	token_count
0	101	716	9
1	102	772	9
2	103	236	6
3	104	1248	3
4	105	98	8

Below the DataFrame, the 'JUPYTER VARIABLES' panel is visible, showing a table of variables:

Name	Type	Size	Value
data	dict	5	{'customer_id': [101, 102, 103, 104, 105], 'age':
df	DataFrame	(5, 6)	customer_id age income signup_date \
mean_income	float64		73750.0
median_age	float64		34.0

The bottom status bar indicates 'Spaces: 4', 'CRLF', '{ }', 'Cell 6 of 6', and 'Go Live'.

AI Model: granite-4-h-small {#} TXT </> 

Summarize the following text into exactly three concise bullet points:

Text: IBM's Granite 4.1 models, released in April 2026, represent a significant leap in enterprise AI. These models are built on a dense architecture and come in 3B, 8B, and 30B parameter sizes. They are distributed under the Apache 2.0 open-source license, allowing organizations to deploy them on-premises or in private clouds. This deployment flexibility resolves major data privacy concerns for industries like finance and healthcare, as sensitive data never has to leave the company's secure network. Furthermore, the 8B instruct model matches the performance of older, much larger models while consuming significantly less compute power.

Summary:

- IBM's Granite 4.1 models, launched in April 2026, offer dense architecture in 3B, 8B, and 30B parameter sizes.
- Under the Apache 2.0 license, organizations can deploy these models on-premises or in private clouds, addressing data privacy concerns in sectors such as finance and healthcare.
- The 8B instruct model demonstrates performance comparable to older, larger models while consuming significantly less compute power.

Write a short, engaging welcome email to new employees joining the "watsonx Innovators" team. The tone should be warm, professional, and forward-thinking.

Email:

Subject: Welcome to the Watsonx Innovators Team!

Dear [New Employee's Name],

Welcome to the Watsonx Innovators team! We are thrilled to have you on board and cannot wait to see the incredible contributions you will make to our mission of pioneering AI-driven solutions.

At Watsonx, we believe in pushing the boundaries of what is possible with technology. Your unique skills and experiences will add tremendous value as we tackle exciting challenges and turn innovative ideas into reality.

In the coming days, you will be introduced to our dynamic team and comprehensive onboarding process designed to help you settle in smoothly. We are committed to supporting your growth and success, ensuring you have all the resources and mentorship you need to thrive.

Please feel free to reach out with any questions or if there's anything you need. We are here to help and look forward to collaborating with you.

Lab 26

Implementing Responsible AI and Bias Mitigation

3 screenshot(s)

Lab 26 - Implementing Responsible AI and Bias Mitigation

01_bias_baseline.png

Responsible AI Lab — Executed Python Evidence

PART 1

Discovering Bias and Baseline Disparate Impact

Synthetic loan data generated with seed 42; logistic classifier trained and evaluated on a held-out test set.

```
approval_rates = df.groupby("protected_group")["loan_approved"].mean()
baseline_predictions = predict_logistic(X_test, baseline_weights)
disparate_impact = P(approval | group=0) / P(approval | group=1)
```

Executed output

```
APPROVAL RATES BY GROUP
protected_group
0      0.514286
1      0.643796

BASELINE FAIRNESS
Unprivileged predicted approval rate: 0.450
Privileged predicted approval rate:   1.000
Baseline Disparate Impact:           0.450
80% rule passed: False
```

Finding: DI = 0.450 is far below the 0.80 threshold, so the baseline model exhibits substantial disparate impact.

Lab 26 - Implementing Responsible AI and Bias Mitigation

02_reweighting_mitigation.png

Responsible AI Lab — Executed Python Evidence

PART 2

Bias Mitigation with Sample Re-weighting

Historically rare group/outcome combinations receive larger training weights before the classifier is retrained.

```
for group in [0, 1]:
    for outcome in [0, 1]:
        mask = (protected_group == group) & (target == outcome)
        weights[mask] = n_train / (4 * mask.sum())

mitigated_weights = train_logistic(X_train, y_train, sample_weight=weights)
```

Executed output

```
RE-WEIGHTING MITIGATION
Unprivileged predicted approval rate: 0.400
Privileged predicted approval rate: 0.521
Mitigated Disparate Impact: 0.767
80% rule passed: False
DI improvement: +0.317
```

Finding: Re-weighting improves DI from 0.450 to 0.767, moving the model materially closer to demographic parity while showing that further mitigation is still needed.

Lab 26 - Implementing Responsible AI and Bias Mitigation

03_prompt_injection_review.png

Responsible AI Lab — Security Review Evidence

PART 3

Prompt Injection Threats and Mitigations

Review of the three attack patterns described in the lab and the controls applied to contain them.

Direct Injection

Attempts to override the system instruction, such as "ignore all previous instructions."

Roleplay Attack

Uses a hypothetical persona or story to pressure the model into relaxing policy.

Indirect Injection

Hides malicious instructions inside retrieved pages, files, or other untrusted data.

SECURITY CONTROLS

- ✓ Separate instructions from data with clear delimiters
- ✓ Screen inputs and retrieved content for injection patterns
- ✓ Enforce least-privilege access for tools, APIs, and databases
- ✓ Keep audit logs and require validation for sensitive actions

Conclusion: Prompt injection cannot be eliminated by prompting alone; defense-in-depth limits the model's authority and the impact of a successful attack.
